

ELEMENTARY SCHOOL BUS INFORMATION FOR PARENTS & STUDENTS

Beach Transportation and MCPS want to welcome everyone to the new school year. If you need transportation for your child we can help. The district has established walking boundaries and busing boundaries. If you are in the busing boundary, **your bus stop has already been established based on your home address**. You can find your bus stop by simply logging onto the districts website www.mcpsmt.org then click on student services and bus schedules. You can also tab on I WANT TO: View Bus Schedules, Stops & Locations.

Please contact Beach Transportation if you need to use another established bus stop. If your child attends DAY CARE outside of the established school attendance boundaries, the parent will be responsible for transportation.

Kindergarten bus riders will be required to wear a bus identification tag that is issued by the school. This tag identifies the child's name, grade and busing information. Together, the school and parents will confirm that all of the busing information on the name tag is correct. The school will issue the tag, once this information has been verified. Please make sure that your child carries this tag every day and that the tag is visible at all times (backpack) so the driver can easily read the information. **Kindergarten students will be sent back into the school if they do not have a bus tag.**

MCPS and Beach Transportation's number one priority is the safety of *all* students. We look forward to the opportunity to serve your children and provide a safe ride each and every day. Here are a few tips for parents that will ensure the safety of your child.

1. Make sure that your child gets on and off the bus at their assigned school bus stop.
2. Elementary schools will help get your child on the correct bus in the afternoon.
3. **Make sure your child knows their name, address, bus number or bus animal identifier (sticker) and their school bus stop location. Teach them how to identify their bus stop when they return home on the bus.**
4. Parents must assume the responsibility for their child's safety to and from the bus stop, and behavior while riding the bus. Parental supervision at the bus stop is recommended in the morning. We suggest that you be at the bus stop at least 5 to 10 minutes early with your child. In the afternoon, meeting your child at the bus stop will assure that they get off at the correct location and home safely. **If you have a kindergarten student, it is recommended that a parent or responsible person meet the bus.** If supervision is not present at the drop off location, or if a child seems confused about their bus stop, the driver may elect to return your child back to the school and you will have to make arrangements for pick up.
5. Children must present the bus driver a written note signed by the parent, in order to go home with a friend.
6. Please make sure your child's contact information at school is up-to-date at all times. This will be helpful in the event of an emergency.

Beach Transportation has set the standard for excellence in student transportation for over 75 years! We work tirelessly to ensure the peace of mind of those who entrusted their children to us. We look forward to work with you and your children!
